## Prefatory Note

The ART INDEX is an index to domestic and foreign publications. Although primarily a periodical index, yearbooks and museum bulletins are included. The main body of the Index consists of subject and author entries to publication articles arranged in one alphabet. In addition there is an author listing of citations to book reviews following the main body of the Index. Subject areas indexed include archaeology, architecture, art history, city planning, crafts, fine arts, graphic arts, industrial design, interior design, landscape architecture, museology, photography and films, and related fields.

The Committee on Wilson Indexes of the American Library Association's Reference and Adult Services Division advises the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years. The Committee as part of its study prepares a list of periodicals, representative of all subject areas included in the Index, for consideration by the subscribers.

Selection of periodicals for indexing from this list is accomplished by subscriber vote. In voting their preferences subscribers are asked to place primary emphasis on the reference value of the periodicals under consideration. They are also asked to give particular consideration to subject balance in order to insure that no important field be overlooked in proportion to overall index coverage.

While the responsibility for all indexing and editorial decisions rests with The H. W. Wilson Company, every effort is made by the Company to follow the recommendations of the Committee and the subscribers to a given periodical index.

Suggestions for addition or deletion of titles should be brought to the attention of The H. W. Wilson Company, 950 University Avenue, Bronx,, N.Y. 10452.

# Explanatory Notes

Volume 28 initiates a number of editorial changes over the permanent volumes of previous years. These have been incorporated in the following notes of explanation.

## ARRANGEMENT

Author and subject entries are listed in one alphabet. No title entries are made. Division of major subject headings (such as **ART**) are filed within the following sections: (1) General subdivisions (**ART—Themes**), (2) Geographical subdivisions (**ART—Spain**), (3) Inverted headings (**ART, Italian**), (4) Phrase headings (**ART and state**).

## BOOK REVIEWS

Following the main body of the index, there is a listing of citations to book reviews.

## FIRM HEADINGS

Firm names used as headings in this volume are listed under one of the following subject headings: **ARCHITECTURAL** firms and groups, **DESIGN** firms and groups, **INDUSTRIAL** design firms and groups, **INTERIOR** design firms and groups, **LANDSCAPE** architecture firms and groups, and **PLANNING** firms and groups.

## ARTICLE TITLES

All titles or parts of titles which have been supplied are enclosed in brackets.

## ILLUSTRATIONS

Works of art (up to ten) are listed in a note only after the artist entry when illustrations accompany an article. If the number of illustrations of an artist's work in an article exceeds ten they are not itemized; the number of illustrations is given in the entry under the artist's name, e.g. 15 il.

## REFERENCES

*See* references lead from terms not used as headings to those under which entries are to be found. *See also* references lead to related subjects. Cross references are made to inverted headings from the uninverted form. For example, it is possible to find all headings subdivided by "French" by consulting the cross references beginning "French," e.g. "French bronzes. *See* Bronzes, French."
